INDEX TO VOL. XL

Electrical Review

NEW YORK

JANUARY 4 TO JUNE 28, 1902

28588

INDEX TO VOLUME XL

ELECTRICAL REVIEW

JANUARY 4 TO JUNE 28, 1902

Articles marked * are illustrated; those marked ** are notes under the heading "Science Brevities;" (E.) indicates "Editorial;" (P.) indicates notes under "Recent Electrical Patents;" (R.) indicates "Reviews of Current Engineering Literature;" (I.) indicates "Industrial Section."

A

Accumulator locomotive, a (R.)..... 513
Action of sea-water on cement, the (R.) 573
Adjustable support for electric fans (I.)* 738
Air-compressors, electrically operated (I.)* 640
"Airgram" 417
Alcohol for use in the arts (R.)..... 446
Alternating-current engineering, beginnings of, by William Stanley*.... 223
Alternating-current machinery for high and low frequencies, by B. A. Behrend* 235, 268
Alternating dynamo electric mechanism, the theory of, by W. E. Goldsborough,* 79, 107, 135, 163, 212 259, 287, 317, 351, 377, 616, 656
Aluminum 785
Aluminum alloy**..... 316
Aluminum bronze under test**..... 352
Aluminum carbon accumulator, an (R.) 542
Aluminum, the commercial importance of 126, 176
Aluminum, some rules for casting.... 465
Aluminum works, the Hayes..... 116
Aluminum zinc alloys..... 578
Ambulance launch, electric (I.)*..... 642
American electric works, the..... 240
American Electrochemical Society, the (E.) 401, 459
American Electrochemical Society, 13, 358, 397, 417
American Electrochemical Society..... 875
American Institute of Electrical Engineers, meeting of, 33, 81, 117, 137, 165, 261, 289, 332, 431, 561, 622, 675, 759
American Society of Mechanical Engineers 696
American railroads and progress (I.).. 577
American Street Railway Association, the 395, 469
American Telephone and Telegraph Company, annual meeting of..... 417
American Telephone and Telegraph Company, annual report of directors 412
Annual business meeting of the American Institute of Electrical Engineers 675
Anodes for plating irregular objects (R.) 572
Apparatus for X-light diagnosis, by William Rollins*..... 795
Apparatus for X-light diagnosis..... 819
Apparatus for extinguishing arcs (P.)* 836
Arc lamp clutch, a novel (P.)*..... 541
Arc lamp, improved (P.)*..... 836
Arc lamp, an improved (P.)*..... 389
Arc lamp, a new type of..... 15
Are free lamp renewals desirable? by James English, F. Ellwood Smith, F. W. Little and W. J. Greene..... 681
Artificial abrasives..... 888
"Armalac," an insulating material (I.)* 342
Armature and coil insulation by the use of Armalac (I.)*..... 516
"Armorl" electro-capillary relay, the*.. 9
Army and navy, electricity in the*.759, 787
Artificial graphite..... 635
Association of Electrical Manufacturers 535
Association of Railway Telegraph Superintendents 338
Attractive and instructive number, a very 578
Aurora and thunder-storms, influence of the moon on (R.)..... 472
Automatic telephone apparatus*..... 99
Auto decoherers (R.)..... 689
Automobile clubs, convention of..... 343
Automobile Club of America.....100, 275
Automobile Club, second annual endurance test of the Long Island..... 404
Automobile, new combination system (I.)* 305
Automobile show, Chicago*.....
Automobile show, French..... 24
Automobile show, motor carriage at Chicago (I.)*..... 305
Automobile, the future of the (E.).... 286
Automobiles, improvements on (P.)*... 327
Automobiles, some new types of*..... 100
Automobilism (E.)..... 747

B

Badge of the New York Electrical Society (I.)*..... 848
Balloons in war time..... 430
Baltimore, large power plant to be built in..... 272
Baltimore, the telephone situation at. 647
Batteries under water (I.)..... 278
Bauxite 771
Bell, William J..... 343
Bellows, a cylinder dust (I.)*..... 517
Berlin elevated railways (R.)..... 448
Berlin-Zossen high-speed electric railway experiments, by Enrico Bignami* 318, 353, 380
Berlin-Zossen high-speed traction experiments, the (R.)..... 689
Bismuth 808
Blast furnace gas engine (R.)..... 638
Blizzards and the telephone (E.)..... 258
Blow-off valve, an improved (I.)*..... 277
Blue-printing apparatus, electric light (I.)* 369
Boiler furnace clinkers, method of utilizing 605
Boiler plugs, fusible (I.)*..... 646
Boiler tube cleaner, water power (I.)*. 647
Bonding pin, an ingenious (P.)*..... 220
Book Reviews, 72, 153, 307, 366, 441, 480, 674, 804
Boston rapid transit situation, by Louis Bell..... 556
Brakes (E.)..... 654
Brass fittings for telephone service (I.)* 807
Brazil, electrical machinery wanted.... 578
Bremmer arc lamp, the*..... 153
Bridge problem, the (E.)..... 856
Bridging bell patents held invalid, the 153
British and American patent law (R.) 447
British electrical enterprise and inventive capacity..... 19
British National Physical Laboratory, the (E.)..... 402
British National Physical Laboratory, the (R.)..... 473
British telegraphic improvement..... 234
British telephone statistics (R.)..... 638
British tramways exposition..... 671
Bronze, experiments on..... 116
Brooklyn's big telephone exchange*... 295
Brooklyn bridge problem, the (E.).... 350
Bullock generator at the Fore River shipyard (I.)..... 607
Bureau of standardization, site for.... 13
Burnishing device, an improved electrical (P.)*..... 801
Business of an interurban electric road (I.)..... 278

C

Cable between Ireland and the Azores, new 127
Cable insulation (R.)..... 573
Cable insulation, a novel model of (R.) 512
Cable-laying plow (R.)*..... 732
Cable terminal, a novel (P.)*..... 876
Calcium carbide as an insecticide (R.) 732
Calcium carbide figures (E.)..... 459
Calcium carbide, native..... 12
Calcium carbide, nodules in..... 23
Calcium sillicide (R.)..... 512
Calorimetric properties of ferromagnetic substances, by Bruce V. Hill.. 403
Canals in Great Britain (R.)..... 446
Candle-power (E.)..... 778
Carbide improvements for arc lamps (P.) 801
Carbon anodes for industrial electrolysis 116
Carbon, apparatus and machinery for manufacture of (P.)..... 10
Carbon bisulphide, electrical (E.)..... 133
Carbon bisulphide, the electrical manufacture of*..... 143
Carbon brush, new method for making (P.) 836
Car coupling, a new (I.)..... 605
Car heating, a new system (R.)..... 603
Carnegie Institute, the (E.)..... 78
Cape to Cairo telegraph..... 19
Capillary electrometer, the (R.)..... 805
Capillary tubes, the electrical transport of fluid in**..... 108
Capital and labor (E.)..... 2
"Captains of industry" (E.)..... 315
"Captains of industry"..... 330
Catalysis (R.)..... 603
Catching fish by electric light..... 9
Cathode rays, colored rings due to**.. 136

Cavendish balance, a new form of (R.) 603
Ceiling fans, four-blade, alternating current (I.)* 393
Ceiling switch, rotary* 70
Cementing iron or steel, a novel method of (P.)* 172
Central station, a fine (E.) 134
Characteristics of two-phase and three-phase systems for general distribution, by C. F. Scott 719
Charging system for telephones, novel. 173
Charleston exposition, the 56
Charleston exposition, electrical exhibit at the (I.)* 577
Charleston, W. Va., independent telephony at* 274
Chicago automobile show, some exhibitors at 396
Chicago Edison Company, lighting system of the* 42
Chicago electrical notes, 24, 72, 128, 156, 280, 308, 371
Child, Charles T. (E.) 856
Child, Charles T., the death of* 857
Chlorine accumulator, liquid (R.) 513
Chromite 704
Chromium, electrical properties of** 3
Cincinnati Gas and Electric Company, the system of the* 623
Citizens' Light and Power Company, Rochester, N. Y., central station of the* 146
City lamp-post, the new standard (I.)* 692
Clock, an electric (I.)* 608
Clock, electrically wound (I.)* 810
Clock switch, an automatic (I.)* 452
Closed conduit electric railway system, a new (I.)* 405
Coal handling appliances wanted in Lourenco Marques 628
Coal-hoisting towers, electrical equipment of (I.)* 847
Coal in China 242
Coal mining and coal handling, electricity in 532
Coal station at Manila, United States (I.) 771
Coast fog signals (R.) 837
Coefficients of self-induction, a new method of measuring (R.) 512
Coherers, single-contact (R.) 446
Collisions at sea, electric contrivance to prevent (R.) 512
Colloids, by W. R. Whitney 363, 385
Combination of polyphase motors for traction purposes, a novel, by Ernst Danielson* 675
Combustion, a phenomenon of** 352
Commercial aspect of wireless telegraphy (E.) 286
Commission farming, an electrical 597
Common battery system, the, by J. J. Carty 266
Common battery equipment, improvements in* 886
Commutator brush, an improved (P.)* 122
Compendium, an interesting 518
Complimentary dinner to railway and light employés, a 95
Compliment and comment 326
Composite incandescent lamp filaments (R.) 688
Compound, a new insulating (P.) 415
Correspondence 500
Concentration 842
Concerning the study of light current engineering (E.) 653
Condensers in practical work (R.) 473
Condensers, a new method of manufacturing electric (P.)* 271
Conduits in cities (E.) 523
Conduit, novel water-proof and fire-proof (P.)* 367
Conduit rods, automatic wheeled (I.)* 851
Conduit systems (I.)* 279
Conduits, water and gasproof subdivided electrical (I.)* 547
"Conigraph" 24
Connector for spools of dynamos, improved (P.)* 567
Construction of small telephone exchanges, the, by A. E. Dobbs, 4, 60, 87, 117, 169, 214, 276, 296, 824, 858
Controlling apparatus, electric (I.)* 481
Convenient form of electric lamp for use with microscope 532
Convention of Electrical Engineers, by George F. Sever 860
CONVENTIONS.
American Electrochemical Society* 474
American Institute of Electrical Engineers 757, 777, 781, 809
American Institute of Electrical Engineers 838
American Institute of Electrical Engineers 860
Canadian Electrical Association, 757, 810
Canadian Electrical Association 834
Engine Builders' Association of the United States 730
Interstate Telephone Association 476, 507
Independent Telephone Association of Wisconsin 299
Independent Telephone Association of Wisconsin 762
Independent Telephone Association of the United States 445, 729
Independent Telephone Association of United States 846
Independent Telephone Association of United States 879
Master Car Builders' Association 765
National Association of Manufacturers 389, 511
National Electric Light Association, 477, 571, 648, 685, 690, 719, 767
National Electrical Contractors' Association 848
Northwestern Electrical Association 113, 571
Pacific Coast Transmission Association 758
Railway Telegraph Superintendents' Association 762
Railway Telegraph Superintendents 875
Copper wire, elasticity of 19
Copper production in 1901, the world's 825
Copper *versus* iron losses in dynamos (E.) 816
Cost of construction and maintenance of telephone lines 539
Costs and charges, some averages of electric light 8
Cotton mills, the electrical distribution of power in a* 666
Cotton mills, electricity in southern 16
Cotton tape (I.) 810
Crystallization under electrostatic stress (R.) 472
Current controlling apparatus, a new (I.)* 485

D

Dangers of electric traction, the (E.) 106
Decomposition tension of sodium hydroxide, the (R.) 542
Decorative effects of small incandescent lamps (I.)* 418
Deflection of Becquerel rays (R.) 447
Dielectric constant of paraffins** 405
Dimming apparatus, a new* 154
Dinner to Mr. Marconi, the (E.) 105
Direct-current dynamos, engine-type* 184
Direct-current motors, shielded type (I.)* 278
Discharge from glowing platinum** 405
Discharge from hot platinum wires (R.) 542
Discharge potential of hydrogen 478
Display and decorative lighting (I.)* 155
Disruptive discharge (R.) 513
Disruptive discharges in electrolytes** 80
Distortionless telephone circuits 53
Distribution of electricity in cities of moderate size 14
Divining rod, an electrical (P.)* 172
Does it pay to creosote wooden poles for electric line work? By W. E. Moore 708
Double current machine, the largest* 206
Dusseldorf exhibition (R.) 602
Dynamos and motors, a protected type of* 125
Dynamo bed-plate, a new (P.)* 734
Dynamo insulation, by Charles E. Farrington 637

E

"Eaco" visual line equipment* 844
Early elevated railway electric locomotive, an* 119
Earth currents (R.) 472, 732
Earth plates** 136
Economizers for incandescent lamps (R.) 639
Eddy Electric Manufacturing Company. 275
Edison storage battery, tests of the 729
Effect of inductance upon spark discharges (R.) 768
Effect of variation of field on power and speed of a constant-potential motor 526
Electric Club, the 406
Electric crane for ship building* 629
Electric elevators and the central station (E.) 615
Electric elevators, electric hoists and telpherage* 561, 590
Electric fans (E.) 191
Electric fans and the central station (E.) 350
Electric fans for 1902* 243
Electric furnace, by Bertram Blount* 558, 586
Electric furnace in industrial chemistry, the 359
Electric incline, an 628
Electric light convention, the (E.) 584
Electric lighting costs and profits (E.) 1
Electric lighting, new methods in (E.) 554
Electric lighting twenty years ago and since, by Professor Elihu Thomson and Edwin R. Weeks 221
Electric lighting system, a new (P.)* 876
Electric light plants in Nicaragua 183
Electric light sign, the (E.) 350
Electric meters, improvements in (P.)* 668

Electric motor vehicle (I.)* 809
Electric power from the Victoria Falls (R.) 688
Electric railway equipment business acquired 599
Electric railways in the English midlands 164
Electric resistance crucible, the** 108
Electric shocks 449
Electric spark in water, the* 273
Electric traction, present tendencies in (E.) 30
Electric traction on main lines 596
Electric ventilating fan (I.)* 279
Electric waves and their effect on the human brain (R.) 769
Electric waves from the sun** 352
Electric welding machines, portable (P.)* 220
Electrical adjuncts of railway travel (E.) 458
Electrical adjunct to the militia, an ... 735
Electrical and magnetic properties of iron alloys (R.) 447
Electrical cable, a new (P.)* 95
Electrical conductivity, the commercial measurement of, by Lawrence Addicks* 460
Electrical convention in the South 471
Electrical Contractors' Association of New York 842
Electrical dental engines (I.)* 742
Electrical deposition of bright metallic coating (R.) 572
Electrical development of Bangkok 240
Electrical distribution of power in a cotton mill* 666
Electrical engineers, volunteer (E.) 748
Electrical engineering and industry in France, present status of 338
Electrical equipment from a British point of view 687
Electrical goods in Siam 163
Electrical instruction (E.) 190
Electrical metallurgical process, a new (P.) 632
Electrical mining notes 416, 600, 636
Electrical navigation (E.) 258
Electrical phenomena in cosmogony 304
Electrical phenomena in volcanic eruption (E.) 702
Electrical progress, interest in (E.) 1
ELECTRICAL REVIEW, the* 192
Electrical statistics 273
Electrical Supply Dealers' Association a trust? is the 733
Electricity building, Louisiana Purchase Exposition* 601
Electricity for large railways (E.) 407
Electricity for Swiss railways 337
Electricity in mines (E.) 402
Electricity in Europe twenty years ago and to-day 227
Electricity in the army and navy* .759, 787
Electricity in the modern shipyard (E.) 523
Electricity in the signal corps, by Lieutenant-Colonel Samuel Reber* 789
Electricity on British warships 92
Electricity meter, a new (R.) 732
Electrochemical and electrometallurgical industry, by J. B. C. Kershaw 39
Electrochemical industries, some novel (E.) 553
Electrochemical industries, the, by Samuel Sheldon 332
Electrochemistry (E.) 315
Electrochemistry and electrometallurgy, 332, 359 385
Electrolytic bleaching 390
Electrolytic alkali developments 124
Electrolytic oxygen and hydrogen** 316
Electrolytic recovery of copper from low grade ores, by N. S. Keith 386
Electromagnetic apparatus, a novel (P.)* 414
Electromagnetic oscillations, by Rankin Kennedy* 667, 704
Electromagnetic theory, the** 164
Electro-motive-force control, patents on. 128
Electroplating 260
Electron theory of light** 52
Electrodes for hardening plates 13
Electrotyping plant, the electrically driven equipment of a modern* 470
Enclosed arc lamp, improved (P.)* 802
Enclosed motors, reducing gears and (I.)* 307
Enclosed arc lamps, novelties in (I.)* 850
Enclosed series arc lamp, a (I.)* 694
Engine requirements for the parallel operation of alternators, by E. M. Tingley 730
Engineer, the electrical (E.) 856
English electrical works to start up ... 571
English *versus* the metric system, by Charles T. Porter 331
"Ethergram" from Texas 272
"Etherogram" (E.) 162
European practice in electric traction, with three-phase alternating currents, some notes on, by Carl L. De Muralt* 714, 749
Everett-Moore Syndicate, the (E.) 29
Evils of prosperity, the (E.) 375
"Evils of prosperity" 442
Exaggeration of danger (E.) 285
Explosive mixture 278
Explosion in New York Rapid Transit subway 154
Exposition at Lille, France 19
Extraction of sugar by electric osmose** 80

F

Facsimile pages of first issue of the ELECTRICAL REVIEW 195, 196
Factory motors and small generators, direct-current (I.)* 770
Faller system of automatic telephony (I.)* 391
Fans, an improved method for driving electric (P.)* 595
Fan, an ingenious electric (P.)* 500
Fan decision, important electric 511
Fan motors (E.) 495
Fan motors, alternating-current (I.)* .. 307
Fan motors and current consumption (E.) 701
Fans, a large order for (I.) 395
Fan motors, new (I.)* 394
Fans, new types of electric (I.)* 395
Farewell dinner to Mr. E. B. Baker 607
Fayet-Chamonix Electric Railway* 785
Feed water purifier, an automatic (I.)* 693
Field magnet construction, recent refinements in, by S. E. Huenerfauth (I.)* 739
Filter boiler cleaner, an improved (I.)* 578
Fire danger from incandescent lamp decorations (R.) 542
Fire hazard from gas, the (E.) 162
First telegraphic train despatcher 440
Fluorine producing apparatus 467
Fluorescence, theory of** 352
Fly-trap, a novel electrical (P.)* 633
"Four-Track News," the 127
Frequency measurements** 260
Function of shunt and series resistance in lightning arresters, by Percy H. Thomas* 867
Furnaces at Camonica, Italy, electrical. 21
Fused quartz (R.) 446
Fuse troubles (E.) 778
Fusible switches, new* 98
Fusion of quartz in the electric furnace (R.) 602
Future of the automobile, the (E.) 286

G

Galvanic current in cleaning boilers 182
Gelatine engraving on glass (R.) 446
General Eckert retires from the Western Union presidency* 397
General Electric annual report 569
General Electric stock dividend 447
Generating units, the gigantic, of the New York Edison Company* 210
Generating units, the largest, in the world* 208
Generators, engine type (I.)* 736
Generators, multipolar type (I.)* 514
Gift of Cecil Rhodes, the (E.) 555
Gift to the future, Mr. Carnegie's (E.). 161
Gilbert, the autograph of Dr. William .. 468
Glass furnace, electric (P.)* 734
Gold dredge, electrically operated (I.)* 692
Golf balls and the cable (E.) 553
Gould storage battery, the (I.) 647
Government installations, some fine* ... 468
Government purchase of telegraphs 56
Gramophone, improved (P.)* 328
Great Barrington, Mass., summer gathering of electrical engineers at 838
Growing appreciation of higher technical education, the (E.) 816
Gutta-percha, seeking 303

H

Haloid acetones, electrolytic preparation of 8
Hardening steel in Germany, a new method of 12
Harput, Turkey, small engines for 358
Hartford Electric Light Company, the motor-generator of the* 618
Headlight, an electric locomotive (I.)* 644
Heater, electric (P.)* 415
Heating plant, long-distance 565
Heating of railway motors, a study of the, by A. H. Armstrong* 831, 864
Heany enclosed arc lamp, the (I.)* ... 452
Hertz waves and certain solar phenomena (R.) 543
Hertz waves in thunder-storms (R.) 689
High-potential direct-current dynamos (R.) 733
High-tension cutouts and automatic electric time switches (I.)* 730
High-tension transmission in Europe (R.) 512
Hoists, electric* 98
Homburg-Saalburg mountain electric railway installation* 466
Honduras, electrical progress in 388
Horse, the future of the (E.) 493
Hospital power and lighting plant, a* .. 443
Hotel telephones, central energy* 127
House journals (E.) 655

Hydraulic rivetting tool (P.)*..... 836
Hydrogen, a commercial source of (R.) 542
Hydrogen from silicides**..... 80

I

"Ideal" selective party-line telephone service* 21
Ignition tube for gas or oil engines (P.)* 10
Illumination (E.)..... 77
Illumination of the Hartford, Ct., capitol dome..... 809
Important transformer decision..... 479
Improved telephone apparatus*..... 843
Incandescent lamps and decoration (I.)* 847
Influence of hydrogen on iron..... 220
Influence of hydrogen on iron (R.)..... 602
Independent telephone securities..... 440
Independent telephone system for Los Angeles, Cal. (I.)*..... 771
Independent telephone system at Philadelphia successfully inaugurated... 69
Independent Telephone Association of the United States (E.)..... 856
Induction coil for X-light tubes and wireless telegraphy*..... 406
Induction coil, the**..... 80
Induction cores, theory of..... 15
Industries, interest in electrical..... 20
Inner globes for enclosed arc lamps (I.) 277
Injury to the eye caused by intense light 184
Insulating compound, a new (P.)..... 415
Insulating covering, a novel (P.)*..... 632
Insulation, dynamo..... 637
Insulator, a novel (P.)*..... 11
Insulator, improved forms of (P.)*.... 541
Insulator, a new glazed-filled (I.)*..... 518
Insulation stripper (P.)*..... 734
Insulating material, "Armalac" (I.)*... 342
Intercommunicating telephones (I.)*.. 277
Interesting invention, an..... 671
Interesting paper, an..... 517
Inspection of electric meters in Massachusetts 13
Institute convention, the (E.)..... 855
International Association of Municipal Electricians, executive committee meeting of the..... 276
Interrupter, a carbon electrolytic..... 511
Interstate Independent Telephone Association meeting, the..... 422
Interstate Independent Telephone Association, the (E.)..... 494
Institute and its library, the (E.)..... 584
Institute meeting, the (E.)..... 428
Institute's summer convention, the (E.) 747
India-rubber, resistance of**..... 3
India-rubber, the adulteration of..... 411
Internal resistance of batteries (R.)... 448
Insulating substance, a new (P.)..... 594
Ions in the atmosphere (R.)..... 768
Ions of electrolysis, the (R.)..... 837
Ionization of liquid by radiation**..... 405
Iron arc in therapeutics, the (R.)..... 472
Irregularity factor on engines, the.... 875
Italy, electrical enterprise in (E.)..... 554
Italy, electrolytic works in..... 471

J

Japan, electrical progress in..... 276
Joist-boring machine, automatic (I.)*. 420
Jungfrau locomotive, the new (R.).... 473

K

Keystone Telephone Company's plant and exchange at Philadelphia*.... 436
Korean view of the electric car..... 415

L

Lamp shifter, an electric (I.)*..... 695
Largest induction coil..... 365
Launch motors (I.)*..... 418
Leghorn, Italy, the electric tramway of, by Enrico Bignami*..... 501
Liberty's torch..... 343
Library of Congress at Washington, electrical equipment of..... 444
Lightning arresters, a new form of (P.)* 877
Lighting system, a new (P.)*..... 439
Lightning (E.)..... 457
Lightning oscillatory? is (R.)..... 639
Lightning, researches concerning (R.). 542
Lightning rod agents again..... 121
Light-wave phenomenon..... 175
Lincoln, Paul N. (I.)*..... 696
Linemen's side-cutting pliers (I.)*..... 545
Liquid sulphur dioxide as a solvent**.. 379
Liquid fuel, boiler firing with oil, by James W. Warren and H. F. Edgar 822, 863
Locking socket for incandescent lamps, a new (P.)*..... 271
London telephone situation, the..... 69
London, telephone service, the..... 18
London underground electrics, turbines for (I.)..... 607
Long-burning enclosed series arc lamp. 890
Long-distance telephony, experiments in 404
Long-distance telephony (E.)..... 553
Long telephone lines in Europe..... 70
Lord Kelvin (E.)..... 494
Lord Kelvin..... 536
Lord Kelvin's recent visit to New York. 621
Lord Kelvin, a reception at Columbia University to..... 408
Luminosity, fatigue of**..... 136
Luminous bacteria (R.)..... 638

M

Magnesium-aluminum alloys**..... 136
Magnesium, polarization of..... 260
Magnetic brakes for Amsterdam, N. Y.. 184
Magnetic effect of electric connection**. 136
Magnetic shielding (R.)..... 837
Magnetic holding table (P.)*..... 172
Magnetic observatory influence..... 220
Magnetic pole, Norwegian expedition to the (R.)..... 472
